ERRATA AND ADDENDA.

Volume III. The index (June, 1914) failed to include reference to the article by Frances G. Wick entitled "A Spectrophotometric Study of the Absorption, Fluorescence, and Surface Color of Magnesium Platinum Cyanide," which was published in the May, 1914, issue, p. 382.

Page 177, Vol. IV. To the paper by David L. Webster entitled "The Effect of Pressure on the Absorption of Light by Bromine and Chlorine, and its Theoretical Significance," reference is added, at the request of the author, to the work of Prof. C. Schaefer, one of the first to investigate the deviations from Beer's Law in Gases, published in *Annalen der Physik*, 16, 1, pp. 93-105, January 26, 1905.
