**Erratum: Analytic results for the Casimir free energy between
ferromagnetic metals [Phys. Rev. A **91**, 032119 (2015)]**

There are several typographical errors in this paper which have no impact on the obtained results.

Thus, the quantity Λ on the right-hand side of Eq. (47) should be replaced with $3\Lambda^2$. As a result, Eq. (48) takes the form

$$a < \frac{3\lambda_p\mu_0^{3/2}\zeta_R(3)}{\pi^3}.$$

Then, for two Ni plates, the right-hand side of this equation should be equal to $34\ \mu\text{m}$, not to $0.9\ \text{mm}$, as is indicated in the text. The respective entropy at $T = 0$ is positive from approximately 2 to $34\ \mu\text{m}$.
