A negative sign in the effective range parameter k_e is missing in the paper, and the correct value is $k_e = -0.058(5)a_0^{-1}$ instead of $0.058(5)a_0^{-1}$. The effective range parameter from Ref. [29] also has to read $k_e = -0.048(3)a_0^{-1}$ instead of $0.048(3)a_0^{-1}$. The correct values have been used in the analysis and therefore the corrections do not affect the results or the conclusion of the paper.
