Two misprints in this paper were recently found that need to be corrected because they prevent reproducing the published energy results in the spin-polarized case of the uniform electron gas, which themselves are correct:

(i) Equation (23) on p. 2 should read

$$s(r_s, \xi) = 1.28 f_r(r_s) f_s(\xi). \quad (23)$$

In the original paper the prefactor 1.28 was omitted.

(ii) The coefficient a_x in Eq. (15) of the paper should read: $a_x = (3\pi^2)^{1/3}$ and not: $a_x = (3\pi^2/2)^{1/3}$ as was mistyped in the paper.

The authors would like to thank Dr. M. Marques from University of Lyon1, France for pointing these misprints out to us.
