This paper was published online on 20 April 2017 with errors in Eqs. (2), (3), (8), and (17), a spacing error on page 1, and a misformatting on page 4. On page 1, left-hand column, there is a space missing between D_2 and $^2S_{1/2}$. On page 4, left-hand column, 4 lines below Eq. (8) should read as “correlating with the first excited 2P states. . .” In Eq. (17) the term $(kT^{3/2}/\mu)$ which should read as $(kT/\mu)^{1/2}$. In Eqs. (2), (3), and (8), the term n^* was set inconsistently. All n values should read n^* in these equations. The equations, typography, and spacing errors have been corrected as of 27 April 2017. The equations, typography, and spacing errors are correct in the printed version of the journal.
