Erratum: Dynamic light scattering in network-forming sodium ultraphosphate liquids near the glass transition [Phys. Rev. B **80, 064201 (2009)]**

R. Fabian, Jr. and D. L. Sidebottom

(Received 29 July 2019; published 13 August 2019)

DOI: [10.1103/PhysRevB.100.089903](https://doi.org/10.1103/PhysRevB.100.089903)

At the time of publication, we were unaware of earlier work by Nemilov [[1](#),[2](#)] whose early suggestion that fragility might be correlated with average bond connectivity is relevant to the topic of our paper.
