There are a few misprints in Eqs. (47) and (48) of the original paper. Equation (47) should read as follows:

$$\Gamma(g) = 2 \int_0^\pi \frac{dk}{\pi} \frac{g \sin(k)}{\Lambda(g, k)} \ln \left[\frac{1 - g \cos(k)}{\Lambda(g, k)} \right].$$

A few lines below, Eq. (48) should be replaced by

$$\Gamma(g) = \begin{cases} 4/\pi - 2\sqrt{2(1-g)} + O(1-g) & \text{for } g < 1, \\ 4/\pi & \text{for } g \geq 1. \end{cases}$$

These corrections do not have any impact on the rest of the paper.
