This paper was published online on 1 February 2016 with an incorrect figure. Figure 4 has been replaced as of 2 June 2016. The figure is incorrect in the printed version of the journal; therefore for the benefit of the print readership, the figure and its caption are replicated below.

FIG. 4. Schematic illustration of the growth of discontinuous to continuous NM capping layer. (a) Experimental damping data for Co/Pt and Co/Au as a function of t_{NM} . The circular point is a literature value for pure cobalt. (b) Theoretical variation in damping data for Co/Pt and Co/Au adapted from Ref. [3] as a function of t_{NM} .
