We detected one error in Table I of our original paper. The space group for boron-1/6 sheet should be replaced by space group *Pmmm* (47). This typing mistake did not change any of our results. The only consequences are the following changes in the Results and Discussion section:

(1) The statement “This material belongs to the space group *Pmmn* and its lattice” should be replaced by “This material belongs to the space group *Pmmm* and its lattice.”

(2) The statement “Notably, borophene [Fig. 1(e)] has the same symmetry” should be replaced by “Notably, borophene [Fig. 1(e)] has *Pmmn* symmetry.”
