I spotted a few typographical errors in Sec. IV of the original paper which are corrected here. In the upper line of Eq. (48) and in the last line of (49), the prefactor $\frac{1}{2}$ should be removed. In the three-line expression for γ_0 that follows after Eq. (49), the factor $\frac{1}{2}$ appearing in the numerator of the first line should be removed, the factor $\frac{1}{4}$ appearing in the second line should be changed to $\frac{1}{2}$, and the factor $\frac{1}{2}$ in the third line should be removed. Finally, in the inline expression that follows immediately after Eq. (50), the right-hand side should be multiplied by 2. None of the results and conclusions are affected by the typographical errors.
