**Retraction: At which magnetic field, exactly, does the Kondo resonance begin to split?
A Fermi liquid description of the low-energy properties of the Anderson model
[Phys. Rev. B **95**, 165404 (2017)]**

Michele Filippone, Cătălin Pașcu Moca, Jan von Delft, and Christophe Mora

(Received 10 July 2018; published 6 August 2018)

DOI: [10.1103/PhysRevB.98.079902](https://doi.org/10.1103/PhysRevB.98.079902)

The original published version of this paper has been retracted because it contained a trivial but fatal sign error that led to incorrect conclusions. The corrected version, which pinpoints the origin and consequences of the sign error and contains a different set of conclusions, has been published separately as Ref. [1].
