It has been brought to our attention that Ref. [36] should be added in the captions of Figs. 2 and 3 as well as in the captions of Tables I and II as follows: “Data adopted from the Ph.D. thesis by Thies [36]. In case of discrepancies between data from the original article and those from Ref. [36], the data in the original article prevail.”

The results and conclusions of the original article are not affected.
