(Received 17 February 2017; published 10 March 2017)

DOI: [10.1103/PhysRevC.95.039904](https://doi.org/10.1103/PhysRevC.95.039904)

The excitation of the level at 2997.7 keV in ^{98}Ru was mistakenly quoted as 2979.7 keV in column 7, row 37 of Table II on p. 7. The same typographical error appears in Fig. 11 for the excitation energy of the same level. This has been corrected in the new version of the figure, which is reprinted here.

The error does not affect in any way the conclusions drawn in the paper.

FIG. 11. The same as for Fig. 9, except for levels above 2800 keV.
