This paper was published online on 24 July 2017 with a typographical error on page 1. On page 1, the second sentence in the Introduction should read as “It is well-known that the Pt isotopes with $A \leq 186$ are prolate deformed in their ground states, whereas the ground states of the heavier Pt isotopes are oblate deformed [1–4].” The paper has been corrected as of 26 July 2017. The text is correct in the printed version of the journal.
