**Erratum: Scalar and vector form factors of $D \rightarrow \pi(K)\ell\nu$
decays with $N_f = 2 + 1 + 1$ twisted fermions

In the Appendix of the paper, Table IX collects the entries of the covariance matrix corresponding to the z-expansions of the vector and scalar form factors given in Eqs. (A3)–(A4) for the case of the semileptonic $D \rightarrow K$ transition. The order of the z-expansion parameters, namely $f^{D \rightarrow K}(0)$, $c_+^{D \rightarrow K}$, and $c_0^{D \rightarrow K}$, does not correspond to the entries of the covariance matrix.¹

The correct Table IX reads

TABLE IX. Covariance matrix corresponding to the z-expansions of the vector and scalar form factors (A3)–(A4) in the case of the $D \rightarrow K$ transition.

	$f^{D \rightarrow K}(0)$	$c_0^{D \rightarrow K}$	$c_+^{D \rightarrow K}$
$f^{D \rightarrow K}(0)$	9.50493×10^{-4}	6.92027×10^{-3}	5.66397×10^{-3}
$c_0^{D \rightarrow K}$	6.92027×10^{-3}	7.99358×10^{-2}	7.55735×10^{-2}
$c_+^{D \rightarrow K}$	5.66397×10^{-3}	7.55735×10^{-2}	1.10925×10^{-1}

¹We thank M. Jung for pointing out the misprint.
