(Received 13 June 2020; published 16 July 2020)

We correct 5 typos and add important information for our Phys. Rev. D **83**, 094004 (2011) article. The solutions to the equations obtained using QCD sum rules, the results, and the conclusions in our original article are not modified.

- (1) In the Introduction, line 9, “vs.” should be “to” and line 10 “vs” should be “vs.”
- (2) In the 7th sentence in Sec. II after Fig. 1 “ $G - \pi$ coupling vanishes.” should be “there is no $G - \pi$ coupling.”
- (3) In the first sentence after Fig. 1 “external pion field” should be “charm quark and anticharm quark”
- (4) After Eq. (6), which should end with a “,” rather than a “.”, add “with $M_c \simeq 1.3$ GeV the mass of a charm quark”.
- (5) The results and conclusions of the original article are not affected.
