The gravitational-wave flux given by Eq. (16) contains typos. The corrected flux is given by

$$\frac{\dot{E}_b}{E_b} = 2 \left(\frac{\mathcal{G} G m_1 m_2}{r_{12}^3} \right) \left\{ \frac{32}{5} (\mathcal{A}_1 + \mathcal{S} \mathcal{A}_2 + \mathcal{S}^2 \mathcal{A}_3) v_{12}^2 + (s_1 - s_2)^2 \left[\mathcal{C} + \frac{18}{5} \mathcal{A}_3 V_{CM}^2 + \left(\frac{6}{5} \mathcal{A}_3 + 36 \mathcal{B} \right) (\mathbf{V}_{CM} \cdot \mathbf{n}_{12})^2 \right] \right\},$$

Moreover, the spin-0 mode speed in Eq. (23b) has a typo in the denominator. The correct expression is

$$c_0^2 = \frac{(\lambda + \beta)(2 - \alpha)}{\alpha(1 - \beta)(2 + 3\lambda + \beta)}. \quad (1)$$

These typos do not propagate, are only present in the paper and not in our calculations, and they do not affect the results in any way.
