Errata

Erratum: Radiative corrections to neutrino-induced neutral-current phenomena in the $SU(2)_L \times U(1)$ theory [Phys. Rev. D 22, 2695 (1980)]

W. J. Marciano and A. Sirlin

We have found the following typographical errors:

- (i) On the right-hand side of Eq. (B16) the first set of square brackets should be deleted and the symbol Re inserted before the second integral.
- (ii) On the right-hand side of Eq. (A18b) a closing square bracket should be placed after $\ln(m_Z/\mu)$.
- (iii) The subsection IIF title should read "... $\bar{\nu}$ -induced ..."

Erratum: Some general properties of the $O(\alpha)$ corrections to parity violation in atoms [Phys. Rev. D 29, 75 (1984)]

W. J. Marciano and A. Sirlin

The muon decay constant below Eq. (17) should be $G_\mu = (1.16632 \pm 0.00002) \times 10^{-5} \text{ GeV}^{-2}$.

Erratum: Testing the standard model by precise determinations of $W^\pm$ and Z masses [Phys. Rev. D 29, 945 (1984)]

William J. Marciano and A. Sirlin

Equation (14) should have properly read

$$\delta \simeq \frac{11}{48\pi} \frac{\alpha}{\sin^2\theta_W} \ln\left(\frac{m_\phi^2}{m_Z^2}\right) + \dots, \quad m_\phi^2/m_Z^2 \gg 1.$$
