Errata

Erratum: $O(\alpha_s^2)$ planar triple energy correlation in QCD **[Phys. Rev. D 39, 713 (1989)]**

F. Csikor, Z. Fodor, E. Lendvai, and G. Pócsik

The following text should be inserted at the end of p. 713: In order to remain in the angular region where fixed-order perturbation theory makes sense, we shall always use in the following a slightly different definition of $C_3^{\text{planar}}(\chi_1, \chi_2)$: namely, we impose cuts requiring that all the relative angles ϕ should lie in the region $(\beta, 180^\circ - \beta)$. In the numerical calculations below, $\beta = 40^\circ$ has been chosen.
