The following corrections apply to our paper:

- (1) In Eqs. (2), (8), (10), (12), and (17), the integrals should be four-dimensional integrals, running from the black hole horizon to infinity.
- (2) In Secs. II–V, when referring to our theorem, “stationary” should be replaced by “static or stationary and axisymmetric.”
- (3) In Sec. IV B, the correct conditions where the theorem applies are the following: $\lambda > 0$ and $\phi \geq 0$ or $\lambda < 0$ and $\phi \leq 0$.
