This paper was published online on 23 September 2015 with errors in Eqs. (154), (156), (157), and (158). Equation (154) should read as

$$c(\tau_1 - \tau_0)_{\text{IPN}} = R - \sum_{A=1}^N \mathbf{k} \cdot (\Delta \mathbf{x}_{\text{IPN}}^A(\tau_1 + t^*, \tau_0 + t^*)). \quad (154)$$

Equation (156) should read as

$$\mathbf{n}_{\text{IPN}}(\tau_1 + t^*) = \boldsymbol{\sigma} + \sum_{A=1}^N \boldsymbol{\sigma} \times \left(\frac{\Delta \dot{\mathbf{x}}_{\text{IPN}}^A(\tau_1 + t^*)}{c} \times \boldsymbol{\sigma} \right). \quad (156)$$

Equation (157) should read as

$$\boldsymbol{\sigma} = \mathbf{k} - \frac{1}{R} \sum_{A=1}^N [\mathbf{k} \times (\Delta \mathbf{x}_{\text{IPN}}^A(\tau_1 + t^*, \tau_0 + t^*) \times \mathbf{k})]. \quad (157)$$

Equation (158) should read as

$$\mathbf{n}_{\text{IPN}}(\tau_1 + t^*) = \mathbf{k} + \sum_{A=1}^N \mathbf{k} \times \left(\frac{\Delta \dot{\mathbf{x}}_{\text{IPN}}^A(\tau_1 + t^*)}{c} \times \mathbf{k} \right) - \frac{1}{R} \sum_{A=1}^N [\mathbf{k} \times (\Delta \mathbf{x}_{\text{IPN}}^A(\tau_1 + t^*, \tau_0 + t^*) \times \mathbf{k})]. \quad (158)$$

The equations have been corrected as of 16 February 2016. The equations are incorrect in the printed version of the journal.
