This paper was published online on 30 March 2016, with errors in the caption to Fig. 1. The fourth and fifth sentences of the caption should read as follows: “The small open symbols show the AA data at different centralities as a function of the effective energy ϵ_{NN} [Eq. (3)]. The RHIC centrality data are shown after removing the energy-balanced limiting fragmentation scaling ingredient, while this ingredient is not taken into account for the LHC centrality data (see text).” The caption has been corrected as of 11 April 2016. The caption is incorrect in the printed version of the journal.
