**Erratum: Heavy-to-light semileptonic decays of Λ_b and Λ_c baryons
in the covariant confined quark model
[Phys. Rev. D **90**, 114033 (2014)]**

DOI: [10.1103/PhysRevD.94.059902](https://doi.org/10.1103/PhysRevD.94.059902)

In the last line of Eq. (10), the signs $\pm$ in front of the term $d\Gamma_P$ have to be reversed to $\mp$. Consequently, the numerical results for the asymmetry parameter α_{FB}^ℓ given in Table VIII are changed. The new values are given below.

TABLE VIII. Asymmetry parameter α_{FB}^ℓ .

Mode	Our result
$\Lambda_b \rightarrow p e^- \bar{\nu}_e$	0.388
$\Lambda_b \rightarrow p \mu^- \bar{\nu}_\mu$	0.386
$\Lambda_b \rightarrow p \tau^- \bar{\nu}_\tau$	0.220
$\Lambda_c \rightarrow n e^+ \nu_e$	-0.236
$\Lambda_c \rightarrow n \mu^+ \nu_\mu$	-0.260

In our paper [1] in Eq. (38) one has to replace $3/2 \rightarrow 3/4$ (sign is unchanged). The numerical values for the lepton forward-backward asymmetry A_{FB}^ℓ in Eq. (66) (first column) are changed accordingly: $0.36 \rightarrow 0.18$ (electron) and $-0.077 \rightarrow -0.0385$ (tau).

We would like to thank Vladimir Galkin for pointing out these mistakes.
