DOI: [10.1103/PhysRevE.101.019901](https://doi.org/10.1103/PhysRevE.101.019901)

In the caption to Fig. 26 the text “the microscopic speeds $v > 80$ km/h, $20 < v \leq 80$ km/h, and $0 \leq v \leq 20$ km/h, respectively;” should be replaced by the following text: “the free flow, synchronized flow, and wide moving jam traffic phases, respectively, which are found through the use of a model of Ref. [1] for the detection of phase transition points along a vehicle trajectory (parameters of this model are taken from Table 2 of Ref. [1] with the exception of parameter v_{SJ} that is chosen 20 km/h);”
