This paper was published online on 13 June 2016 with a conversion error in Eq. (3). Equation (3) should read as

$$\frac{d^2\mathcal{E}_{\text{CTR}}}{d\omega d\Omega} = \frac{e^2 N(N-1)}{\pi^2 c} \left| \int S(\beta, \varphi, \phi) f(\tau, \boldsymbol{\rho}, \mathbf{v}) e^{i\omega\tau - i\mathbf{q}\cdot\boldsymbol{\rho}} d\tau d\boldsymbol{\rho} d\mathbf{v} \right|^2 \quad (3)$$

The equation has been corrected as of 16 June 2016. The equation is correct in the printed version of the journal.
