This paper was published online on 12 December 2016 with an error in Eq. (1) and an omission of text after Eq. (2). Equation (1) should read as

$$(\partial_t + \mathbf{u} \cdot \nabla) \mathbf{u} = -\nabla P / \rho + \nu \nabla^2 \mathbf{u} - \alpha \mathbf{u} - (\phi \nabla \mu) - A \mathbf{g} + \mathbf{f},$$

The text following Eq. (2) should read as “where P is pressure and ρ ($=1$) is the constant density, together with the incompressibility. . . .” The paper has been corrected as of 12 January 2017. The equation and text are correct in the printed version of the journal.
