Division of Fluid Dynamics Support of *Physical Review Fluids*

The APS Division of Fluid Dynamics is pleased to support *Physical Review Fluids* as a premiere forum for publication of our members' research across a wide spectrum of areas. We feel that this new journal recognizes the importance of our subject within the family of APS journals, and we plan to maintain a close relationship with the journal as it develops. The Division will work closely with PRFluids to benefit the community we both serve.

Ellen Longmire
Chair, APS Division of Fluid Dynamics
