There was a typographical error in the $\pm$ signs as used in Eq. (1) of the Letter. The equation should read

$$S(\nu, \mu) = \frac{15\pi\hbar\Omega_R^2}{4} N \frac{h\nu}{\tilde{\mu}^2} \sqrt{1 - \frac{h\nu}{\tilde{\mu}}}. \quad (1)$$

This error is purely typographical and not present in any of the calculations, nor in any of the other equations in the Letter and the Supplemental Material. The conclusions and results of the Letter remain unchanged.
