ERRATA

QUADRATIC MASS RELATIONS IN TOPOLOGICAL BOOTSTRAP THEORY. C. E. Jones and J. Uschersohn [Phys. Rev. Lett. 45, 1901 (1980)].

On page 1904, the following acknowledgment should be added to the final paragraph: This work was supported in part by the National Science Foundation under Grant No. PHY 78-09619.

UNDAMPED SECOND-SOUND WAVES IN A ³He-⁴He MIXTURE HEATED FROM BELOW. V. Steinberg [Phys. Rev. Lett. 45, 2050 (1980)].

On page 2051 in the first term of the right-hand side of the first equation in (2), $(\pi^2 + k^2)V$, should read $(\pi^2 + k^2)^2V$.

On the next to the last line on page 2051, the numerator, $(\pi^2 + k^2)^2$, of the inequality should read $(\pi^2 + k^2)$.

In Eq. (15) the number on the right-hand side should be preceded by a minus sign.
