PACS numbers: 52.59.-f, 99.10.Cd

We have detected an error in the text of our paper: at page 3, line 27, in the sentence: “...both with [curves (a)] and without [curves (b)] the effects of the energy spread for $I = \dots$ ” the term “energy spread” must be substituted by “space charge”. In fact, Fig. 2 concerns rightly the evolution during the beam propagation of the emittance and envelope with and without space charge. The results and conclusions of the article are not effected.
