We have identified a mistake in our paper and it appeared twice in the text and also in three figures throughout the article. The number of particles noted on page 5 (2.5×10^{13}), page 8 (2×10^{13}), plotted in the horizontal scale of Fig. 9, and the left vertical scales of Figs. 11 and 13 should be given as half the value.

We note that the result and conclusion presented in the article are not affected by the mistake.
